magnum end feed

- Applicator for terminals linked « end to end », with thickness between 1.2mm and 1.5mm, wire section up to 25mm².
- Pneumatic end-feed feeding system.
- Exclusively fitted with a continuous regulating head having a resolution of 0.02 mm and a 2.7 mm range.
- Non-resettable, 7 digit cycle counter.
- Most of the wearing parts can be replaced without removing the applicator from the press.
- Can be fitted to any crimping press having a crimping height of 135.8mm.

DESCRIPTION:

Magnum pneumatic end feed

CRIMPING HEIGHT:

(5.346") 135.8mm

STROKE:

(1.575/1.18") 40/30mm

TERMINAL PITCH:

Not binding

TERMINAL THICKNESS:

(0.047" to 0.059")
1.2 to 1.5mm

WIRE SECTION:

max 25mm²

FEEDING SYSTEM:

air pressure 5/6 Bar

WEIGHT:

(16.3 lb) 7.4 Kg

DIMENSION (mm):

W 128 x H 145.5 x D 320

DIMENSION ("):

W 5.04" x H 5.72" x D 12.5"
